

**Quality Ingredients.**

Using only the best of meat from the industry's top producers and federally inspected facilities, Farm Meats produces a highly digestible and palatable premium dog food. The meats are blended with whole-wheat flour and then are compressed into our famous roll packaging. The rolls are the pressure-cooked, thus cooking the meat in its own juices. In addition to digestible meat proteins, Rollover also provides high-quality fat for healthy skin and a lustrous coat, complex carbohydrates for energy and fiber, plus vitamins and minerals for a complete nutritional meal.

**Freshness Guaranteed.**

Because Rollover are completely natural, with no artificial colourants or preservatives, their low moisture levels make them less susceptible to spoilage. Once opened, Rollover requires refrigeration and will stay tasty for three months.

**Beef Rollover:**
